

MRS. TYLER'S DEATH.

The Tenth President's Widow Passes Away.

THE RUMORS ABOUT COM'R TANNER

Secretary Noble Does Not Deny Them—William Walter Phelps' Letter—Inchey—Sullivan and Kilrain.

RICHMOND, Va., July 10.—Mrs. ex-President John Tyler died at the Exchange hotel this evening from a congestive chill. She had been at the hotel since Sunday evening, and was to have left Monday to visit a son on the James river. Tuesday forenoon she was taken with a congestive chill, but medical skill proved of no avail, and she died at a quarter past five this afternoon.

Mrs. Tyler leaves four children—Lyon G. Tyler, president of William and Mary college, Virginia; Gardiner G. Tyler, who lives in Charles City county, Va.; Dr. Keadon Tyler, of Washington city; and Mrs. William H. Tyler, of Montgomery county, Virginia. As a child, Mrs. Tyler was in New York city, and after a short time spent in travel through Europe, she came to Washington with her father in 1840. A few weeks after her arrival she accepted an invitation from President Tyler to attend a pleasure excursion down the river on the war steamer Princeton. The festivities on this occasion were sadly marred by the explosion of a gun on the vessel, causing the loss of life.

Among those killed was Miss Gardner's father. His body was taken to the White House, and Miss Gardner was thrown a great deal into the society of the President, owing to the peculiar circumstances attending her father's death.

President Tyler's first wife, had died shortly after he entered the White House, and he had married her in a hurried manner, which resulted in their marriage in New York city, June 26, 1844. For the succeeding eight months of President Tyler's term, she presided over the White House with tact, grace and dignity. After the 4th of March, 1845, Mrs. Tyler retired with her husband to the seclusion of their country place, Sherwood Forest, near the town of Charles City, Virginia. She remained in Virginia until after the civil war, her husband having died about the beginning of the strife, and then went to reside at her mother's residence in New York city, where she died. After several years' residence there, she removed to Richmond, Va., where she died. Mrs. Tyler was a Roman Catholic in religion.

William Walter Phelps' Letter.

NEW YORK, July 10.—Mr. William Walter Phelps, in referring to an invitation from the Philadelphia committee to a public reception to be given him in Philadelphia in honor of his success in the Berlin conference, writes: "I don't like to celebrate the results of the Berlin conference when my colleagues on the commission are absent. If there is anything to celebrate, and while a diplomatic publicist like myself respects his own duties, he will not fail to read in the English and German press that in their opinion the interests of the United States and of Samoa were not neglected in Berlin, the credit must be shared at least equally with my accomplished colleagues on the American commission. Kansas, of Iowa, astute, alert, experienced, trained for a general in the debate of Congress to read the minutes of the conference, and a conspicuous part; Bates, of Delaware, young, eager and accomplished, bringing to the very table of the conference a personal and accurate knowledge of Samoa's conditions and laws, and history, and welcomed there with peculiar respect, because they welcomed him as an enemy, and he proved by his judicial fairness in debate and in decision that a man with such respect for his own rights will most regard the rights of others, and become their friend; to these were largely due the success of the conference, and I am sure that the credit must be shared by all of them, to indicate that I claimed any more than my share with them of a battle honorably fought."

Sullivan Coming North.

MOBILE, Ala., July 10.—John L. Sullivan got on board the Louisville & Nashville train at Grand Bayala, at 5 o'clock this afternoon, with Mike Cleary, Mike Muldoon, his seconds, and Charley Johnson, his backer. They had been in hiding to avoid papers being served, and their movements were not known. They will arrive at Nashville at 10:30 to-morrow, Thursday, passing through and by way of Louisville. Sullivan was much in hiding when he learned of the rumor of Kilrain's death, and every effort is being made to keep any dispatches being sent as to his movements on the route, etc. The party are very noisy, and are making a great deal of noise. They did not know whether there is any truth in the rumor or not, as at that time his family had not been ascertained. They had seen as much as to come to Louisville. Sullivan said he undoubtedly purchased Kilrain's death, and looked as though that rumor was no great surprise to him.

Tanner Will Doubtless Go.

WASHINGTON, July 10.—Secretary Noble was seen late this afternoon and asked if there were any truth in the reiterated reports that he desired to have a new commission of pensioners in the case of John F. Tanner. He was just getting into a department carriage at the time he was driven to his home. He said that he had nothing to say about the reports. He made no answer, and immediately drove off when asked if this statement could be interpreted as meaning that the publications had some foundation.

Kilrain Very Sick.

LITTLE ROCK, Ark., July 10.—Kilrain and party passed through Little Rock this afternoon on the Iron Mountain train from the south, en route to St. Louis. A reporter accompanied the party as far as Harrison Cross. A friend of the reporter introduced him to Kilrain and party. Kilrain was very sick, and from all appearances was badly used up. The fact that he was seen from his ring punch could not be better illustrated than by noting him when he attempted to put on his coat. This was done with great difficulty, and he was not able to do so without the assistance of his attendants.

To Dynamite the Farnell Commission.

LONDON, July 10.—Michael Davitt appeared before the Farnell commission again to-day and complained that somebody who desired to injure the Irish in the eyes of the British public had placed two bogus dynamite machines within the precincts of the court and out of this an alleged attempt at outrage.

The Evening Post, of London, made a sensational article which said that this incident indicated the danger which the court incurred and showed how easily the desperate enemies of England, who recently testified before the commission, could blow up the building. Davitt in an excited manner asserted his belief that the affair had been planned by LeCaron, and Justice Hannan said he understood why Davitt should have such strong feelings in the matter, but he must take a proper course and make inquiries to prove his allegations. He himself regarded the matter as a silly hoax.

The condition of the crop is only medium, lower than usual at this period of its development. West of the Mississippi, in the sub-humid belt and the border of the arid region, the crop is generally in fine condition, though injured at points by overflows and excess of moisture. In the great central wheat belt it is green with American cereals in full development. The general average of condition is about ninety.

A GRAND ARMY FIGHT

With the Railroad Companies About Special Rates.

THE ADMINISTRATION'S POLICY

Towards the Territories—Colorado's Catholic Bishop Dead—Germany and Switzerland—At the Various Indian Agencies.

CHICAGO, July 10.—The fight between the Grand Army of the Republic and the various railroad companies reached an acute phase this evening. This was the last day of the period named by the Grand Army men in which the railroads might gracefully surrender and give the usual rate of one cent a mile to persons attending the great annual encampment announced to take place this year at Milwaukee. No surrender was made by the railroads, and this afternoon the committee of the Grand Army of the Republic, who have been agitating the subject, held a meeting here and proceeded with their attempt to carry out their threat that in the event of the railroads refusing to surrender, the encampment should be held at Chicago, instead of a more popular gathering.

The committee voted to send a circular letter to all the railroads, asking them to surrender, and if they refused, to hold the encampment at Chicago. The committee also voted to send a circular letter to all the railroads, asking them to surrender, and if they refused, to hold the encampment at Chicago. A NEW YORK JOHNSTOWN FLOOD.

THE WATERS PLAY HAVOC, and Many Lives and Much Property Are Lost.

NEW YORK, July 10.—A Johnstown special says: The water which came up over this village last night subsided this morning, but left scenes of desolation in every direction. The water rose fifteen feet and overflowed everything, it has fallen eight feet. Ten people are reported missing; the bodies of four have been recovered; all are Johnstown people. The drowned and missing people were among a crowd of thirty to fifty people who stood on the stone bridge at Ferry street, waiting the rising water regardless of the danger, until the bridge gave way. The bridge was twenty feet high and fifteen or twenty feet wide. Most of those thrown into the water were saved.

No Telegraphic Communication.

AMSTERDAM, N. Y., July 10.—It is now reported, with some evidence of truth, that fifteen persons were drowned at Johnstown, N. Y. There is no telegraphic communication between this city and Johnstown. The Associated Press has sent reporters from Albany, Utica and Schenectady to the scene of disaster.

Estimates of the Loss of Life.

The flood was so great and the current so swift that no help could be rendered without great danger. The number lost cannot be determined, as the bridges carried away from six to thirty. The creek is being dragged.

The Number of Victims.

SCHENECTADY, N. Y., July 10.—There is as yet no certainty of more than four lives being lost at Johnstown, and these victims are yet to be identified. The bodies of three were on a bridge viewing the flood after the storm. The bridge carried away by the water, but was not carried away. This afternoon the tracks and bridge at Fond du Lac and Atkins were sufficiently repaired to permit passage of trains. The total damage in the valley of Cayuga to mills, bridges and crops will reach \$30,000.

A Mexican Central Accident.

SAN FRANCISCO, July 10.—A special dispatch from El Paso, Texas, says: The passenger train on the Mexican Central which left Paso Del Norte Monday night, was wrecked five miles this side of Chihuahua, and every coach derailed. The train was running at a rapid rate to make up lost time occasioned by washouts. The engine pinning of the engine was washed out by a torrent, caused by a cloud burst in the mountains. The engine passed over safely, but the bridge gave way before the coaches got across. Two people were killed and many injured. Five injured. Nineteen people were taken to the hospital at Chihuahua, and two of them have since died.

Following the Perishes.

CASCO, July 10.—General Grenfell has issued a warning to the natives that although the Derwishes were defeated at Arguin, they have succeeded in marching northward.
